"Our children are the greatest mission field in America."

Introducing Mission Field, a special place for children of all ages and abilities. Mission Field will be home to a Family Playground unlike any other. It will provide a half-acre of play area covered in a soft surface and will feature verses and references from the Bible throughout. The playground will open in July 2023.

The following spring will see the opening of a Miracle League baseball field, a field designed especially for children with

special abilities. It will be home to the Miracle League of the Tar River Region and will give children the opportunity to play, compete, and enjoy the thrill of sport.

A Family Walking Trail is open now on Mission Field and is a pleasant three-quarter-mile journey through wooded areas and open fields. A covered picnic area will connect the playground and ballfield. An amphitheater is part of the future vision for the site.
